## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and 2022 (Expressed in USD)

## (1) CORPORATE STATUS, REPORTING AND NATURE OF OPERATIONS

Ceres Global Ag Corp. (hereinafter referred to as "Ceres" or the "Corporation") was incorporated on November 1, 2007, as amended on December 6, 2007, under the provisions of the Business Corporations Act (Ontario) (the "OBCA"). On April 1, 2013, Ceres Global Ag Corp. amalgamated with Corus Land Holding Corp. and on April 1, 2015, Ceres Global Ag Corp. amalgamated with Riverland Agriculture Ltd. and Ceres Canada Holding Corp. Thereafter, the amalgamated corporations continued operating as Ceres Global Ag Corp. Ceres is a corporation domiciled in Canada, with its head office located in Golden Valley, Minnesota, United States. The Corporation's parent is VN Capital Management, LLC.

These interim condensed consolidated financial statements of Ceres as at and for the three- and nine-month periods ended March 31, 2023 and 2022 include the accounts of Ceres and its wholly owned subsidiaries Ceres U.S. Holding Corp. (Delaware), Riverland Ag Corp. (Delaware) ("Riverland Ag"), Nature's Organic Grist LLC (North Dakota) ("NOG"), Delmar Commodities Ltd. (Manitoba) ("Delmar"), and Ceres Global Ag Corp. Mexico S.A. DE C.V. ("Ceres Mexico"). All intercompany transactions and balances have been eliminated. The Corporation is an agricultural cereal grain storage, customer-specific procurement and supply ingredient company that operates eleven grain storage, handling, and merchandising facilities in the state of Minnesota and the provinces of Manitoba and Saskatchewan, with a combined grain and oilseed storage capacity of 29 million bushels. NOG is a supplier of organic grains. Through Delmar, the Corporation owns and operates a soybean crush facility and a seed distribution network in western Canada.

## (2) BASIS OF PREPARATION

## Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and with International Accounting Standards ("IAS") 34 – Interim Financial Reporting ("IAS 34"). Certain information and disclosures required to be included in notes to the annual consolidated financial statements have been condensed or omitted. Accounting, estimation and valuation policies, have been consistently applied to all periods presented herein, in accordance with IFRS.

These interim condensed consolidated financial statements should be read in conjunction with Ceres' annual consolidated financial statements for the year ended June 30, 2022. The Corporation's significant accounting policies are presented in note 3 of those consolidated financial statements.

These interim condensed consolidated financial statements were authorized for issue by the board of directors of the Corporation (the "Board of Directors") on May 11, 2023.

#### Functional and presentation currency

The Corporation and all of its subsidiaries have a functional currency of United States Dollars ("USD").

These interim condensed consolidated financial statements are presented in USD.

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

#### Basis of measurement

These interim condensed consolidated financial statements have been prepared on a historical cost basis, except for the following material items in the balance sheet:

- Derivative financial instruments are measured at fair value;
- Financial instruments at fair value through profit or loss or other comprehensive income are measured at fair value; and
- Inventories of grains are measured at fair value less costs to sell.

## (3) SUMMARY OF SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS

The timely preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively. The following summarizes the accounting judgments, estimates and assumptions management considers significant:

## **Summary of Significant Accounting Judgments**

## Measurement of Deferred Tax

Management is required to apply judgment in determining, on an entity-by-entity basis, whether it is probable that deferred tax assets will be realized. In addition, the measurement of income taxes payable and deferred tax assets and liabilities require management to make judgments in the interpretation and application of the relevant tax laws. The actual amount of income taxes only becomes final upon filing and acceptance of the tax return by the relevant authorities, which occurs subsequent to the issuance of the consolidated financial statements.

#### Interest Rate Swap Contract

Judgment is used when determining if hedge accounting is allowable for certain hedging instruments. In accordance with IFRS 9, hedge accounting allows an entity to reflect risk management activities in the consolidated financial statements by matching gains or losses on financial hedging instruments with losses or gains on the risk they hedge. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized in other comprehensive income and any remaining gain or loss is hedge ineffectiveness that is recognized in profit or loss.

#### Joint Arrangements

Judgment is used in determining whether a joint arrangement qualifies as a joint operation or a joint venture. In accordance with IFRS 11, in a joint operation, members have rights to the assets and obligations of the liabilities of a joint arrangement. Each party must recognize its share of the assets, liabilities, revenues, and expenses. All arrangements that are not structured through a separate vehicle are considered a joint operation. Joint ventures are joint arrangements which are structured through a separate vehicle that confers legal separation between the joint venturer and the assets and liabilities in the vehicle.

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

## Summary of Significant Accounting Estimates

Inventories and Commodity Derivatives

To reduce price risk caused by market fluctuations, the Corporation generally follows a policy of using exchange traded futures and options contracts to minimize its net position of merchandisable agricultural commodity inventories and forward cash purchase and sales contracts. The Corporation will also use exchange traded futures and options contracts as components of merchandising strategies designed to enhance margins. The results of these strategies can be significantly impacted by factors such as the volatility of the relationship between the value of exchange traded commodities futures contracts and the cash prices of the underlying commodities, and volatility of freight markets.

Derivative instruments, including futures contracts, forward commitments, options and other similar types of contracts and commitments based on commodity derivatives, are carried at their fair value. Management determines the fair value based on exchange quoted prices and in the case of its forward purchase and sale contracts, estimated fair value is adjusted for differences in local markets. While the Corporation considers its commodity contracts to be effective economic hedges, the Corporation does not designate or account for its commodity contracts as hedges. Realized and unrealized gains and losses in the value of commodity contracts and grain inventories are recognized in Cost of Sales. Unrealized gains and losses on these derivative contracts are included in due from broker, and Unrealized gains (losses) on open cash contracts on the Consolidated Balance Sheet.

The fair values of commodity inventories are determined from exchange or quoted market prices and judgment is applied in estimating expected freight costs to normal delivery points and the price premium or discount to reflect the effect of local supply and demand factors.

#### **Current Events**

## War in Ukraine

In late February 2022, Russia invaded Ukraine. The Black Sea region is a key international grain, oilseed, and fertilizer export market and the conflict between Russia and Ukraine could continue to disrupt supply and logistics, cause volatility in prices, and impact global margins due to increased commodity, energy, and input costs. While the Corporation does not actively trade in the region, the war has put a strain on the global commodities market as a whole. Management will continue to monitor the situation and address the possible risks accordingly.

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

## (4) DUE FROM BROKERS

"Due from brokers" represents unrealized gains and losses due from custodian brokers on commodity futures and options contracts in addition to margin deposits in the form of cash that are held by custodian brokers in connection with such contracts. Amounts due from brokers are offset by amounts due to the same brokers, under the terms and conditions of enforceable master netting arrangements in effect with all brokers, through which the Corporation executes its transactions and for which the Corporation intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Amounts due from brokers consist of the following:

(in thousands of USD)	_	March 31, 2023	June 30, 2022

## (5) FINANCIAL INSTRUMENTS

#### Fair Value of Financial Instruments

The Corporation's financial assets and liabilities that are measured at fair value in the Consolidated Balance Sheets are categorized by level according to the reliability of the inputs used in making the measurements. The Corporation recognizes transfers between fair value measurements hierarchy levels as of the date of the event or change in circumstances that caused the transfer. There were no transfers between levels in the quarter ended March 31, 2023, or 2022.

## Management of Financial Instruments Risks

In the normal course of business, the Corporation is exposed to various financial instruments risks, including market risk (consisting of price risk, commodity risk, interest rate risk and currency risk), credit risk, custodian and prime brokerage risks, and liquidity risk. The Corporation's overall risk management program seeks to minimize potentially adverse effects of those risks on the Corporation's financial performance. The Corporation may use derivative financial instruments to mitigate certain risk exposures. The Corporation may invest in non-public and public issuers and assets.

## Commodity Risk

To reduce price risk caused by market fluctuations, the Corporation generally follows a policy of using exchange-traded futures and options contracts to minimize its net position of merchandisable agricultural commodity inventories and forward cash purchase and sales contracts. The Corporation will

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

also use exchange-traded futures and options contracts as components of merchandising strategies designed to enhance margins. The results of these strategies may be significantly influenced by factors such as the volatility of the relationship between the value of exchange-traded commodities futures contracts and the cash prices of the underlying commodities, and volatility of freight markets. Derivative contracts have not been designated, and are not accounted for, as fair value hedges. Management determines fair value based on exchange-quoted prices, and in the case of its forward purchase and sale contracts, estimated fair value is adjusted for differences in local markets. Realized and unrealized gains and losses in the value of inventories of merchandisable agricultural commodities, forward cash purchase and sales contracts, and exchange-traded futures contracts are recognized in profit or loss as a component of Cost of revenues. Unrealized gains and losses on these derivative contracts are recognized in earnings and classified on the Consolidated Balance Sheet as Due from Broker, Unrealized gains (losses) on open cash contracts, as applicable.

Management has determined the effect on the results of operations of the Corporation for the period ended March 31, 2023 if the fair value of each of the open cash contracts as at March 31, 2023 had increased or decreased by 5%, using the open cash contracts as at that date and the number of shares then issued and outstanding, and with all other variables remaining constant.

The potential effects on the result of operations for the period ending March 31, 2023 would be as follows:

		Increase	Increase
		(decrease) in net	(decrease) in
(in thousands of USD except income per share)	_	income	 income per share
5% increase in bid/ask prices of commodities	\$	(438)	\$ (0.01)
5% decrease in bid/ask prices of commodities	\$	438	\$ 0.01

#### Interest Rate Risk

As at March 31, 2023, Ceres had no long or short portfolio positions in any interest-bearing investment securities.

As at March 31, 2023, except for cash on deposit, the amounts of which vary from time-to-time and on which the Corporation earns interest at nominal variable interest rates, the Corporation had no other variable rate interest-bearing financial assets. As at those dates, a notional increase or decrease in interest rates applicable to cash on deposit would not have materially affected interest revenue and the results of operations. Therefore, as at March 31, 2023, the Corporation's assets are not directly exposed to any significant degree to cash flow interest rate risk due to changes in prevailing market interest rates.

As disclosed in note 9 (Bank Indebtedness), as at March 31, 2023, the Corporation's 2023 Credit Facility (as defined herein) bears a tiered annual interest rate based on utilization ranging from 2.25% to 2.50% plus SOFR plus 10 basis points. As at March 31, 2023, management has determined the effect on the future results of operations of the Corporation if the variable interest rate component applicable on that date was to increase by 25 basis points ("25 bps"), using the balance of the revolving credit facility payable as at that date and the number of shares then issued and outstanding, and with all other variables remaining constant.

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

Furthermore, as at March 31, 2023, the Corporation's term debt with the Bank of Montreal ("BMO Loan") (note 10) bears interest at an annual rate of 3.50% plus one-month LIBOR. On September 14, 2021, the Corporation entered into a floating-to-fixed interest rate swap, fixing the variable interest portion of the BMO Loan. As at March 31, 2023, the interest rate swap fair value was \$1.9 million and the change in fair value is recorded in Other Comprehensive Income. In October 2021 and March 2022, the Corporation increased the outstanding term debt via delayed draw by \$10.0 million each. The delayed draws were used to fund the Northgate crush project and the related interest was capitalized. In June 2022, the Corporation suspended the Northgate crush project and wrote off the previously capitalized costs. Subsequent to the suspension, any interest expense related to the delayed draws is recorded within interest expense. The \$16.3 million attributable to the delayed draw is not hedged by the previously mentioned interest rate swap and as such is the only portion of the term loan that is subject to interest rate fluctuations. As at March 31, 2023, management has determined the effect on the future results of operations of the Corporation if the variable interest rate component applicable on that date was to increase by 25 basis points ("25 bps"), using the balance of the delayed draw portion of the BMO Loan payable as at that date and the number of shares then issued and outstanding, and with all other variables remaining constant.

On that basis, the potential effects on the results of operations for the nine months ended March 31, 2023 would be as follows:

(in thousands of USD except income per share)	_	Increase (decrease) on net income		Increase (decrease) on income per share
2023 Credit Facility (as defined in note 9) 25 bps increase in annual interest rate	\$	(42)	\$	-
BMO Loan (delayed draw) 25 bps increase in annual interest rate	\$_	(31)	\$_	<u>-</u>

#### Credit Risk

Credit risk is the risk a counterparty would be unable to pay for amounts due to the Corporation in accordance with the terms and conditions of the debt instruments. As at March 31, 2023, the Corporation is subject to credit risk concerning cash, amounts due from brokers, trade accounts receivable, and to the extent that open cash contracts for grain commodities have given rise to unrealized gains. The maximum exposure to credit risk on those assets is limited to the carrying value of those assets. The Corporation uses various grain contracts as part of its overall grain merchandising strategies. Performance on these contracts is dependent on delivery of the grain or a customer buy-out. There is counter-party risk associated with non-performance, which may have the potential of creating losses.

The Corporation regularly evaluates its credit risk concerning its trade accounts receivable to the extent that such receivables may be concentrated with significant customers. The Corporation minimizes this risk by having a diverse customer base and established credit policies. The aging of the Corporation's trade accounts receivable is substantially current. As at March 31, 2023 and June 30, 2022, the allowance for doubtful accounts was \$171 thousand and \$111 thousand, respectively.

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

The Corporation did not have any customers that individually represented more than 10% of total revenue for the periods ended March 31, 2023 and March 31, 2022.

## <u>Custody and Prime Brokerage Risk</u>

There are risks involved with dealing with a custodian or broker who settles trades. In certain circumstances, the securities or other assets deposited with the custodian or broker may be exposed to credit risk with respect to those parties. In addition, there may be practical, or timing implications associated with enforcing the Corporation's rights to its assets in the case of the insolvency of any such party. Notwithstanding the foregoing, management has evaluated the risk of loss related to the custodian or brokers and has determined this risk to be insignificant.

#### Liquidity Risk

As at March 31, 2023 and June 30, 2022, the following are the contractual maturities of financial liabilities, excluding interest payments:

N/	lar	·ch	-21	. 2	UJ.	7

Future expected operational cash flows and sufficient assets are available to fund the settlement of these obligations in the normal course of business. In addition, the following factors allow for the substantial mitigation of liquidity risk: the prompt settlement of amounts due from brokers, and the active management of trade accounts payable and receivable. The Corporation's cash flow management activities and the continued likelihood of its operations further minimize liquidity risk.

#### Currency Risk

In the normal course of business, Ceres may hold assets or have liabilities denominated in currencies other than USD. Therefore, Ceres is exposed to currency risk, as the value of any monetary assets or liabilities denominated in currencies other than USD will vary due to changes in foreign exchange rates.

As at March 31, 2023, the following is a summary, at fair value, of Ceres' exposure to currency risks on monetary assets and liabilities:

	Net asset (liability)
(in thousands of USD)	exposure
Canadian dollars	\$ 4,170

The following is a summary of the effect on Ceres' profit or loss for the period ended March 31, 2023 if the USD had become 5% stronger or weaker against the CAD as at March 31, 2023, with all other variables remaining constant, related to monetary assets and liabilities denominated in CAD:

	Increase			Increase
		(decrease) in net		(decrease) in
(in thousands of USD except income per share)	_	income		income per share
CAD 5% Stronger	\$	208	\$	0.01
CAD 5% Weaker	\$_	(199)	\$	(0.01)

Currency risk for Ceres relates to transactions denominated in a currency other than USD and the translation of its accounts from CAD to the functional currency of USD. Transactional gains and losses on foreign exchange are recorded in "Finance income (loss)" in the Interim Condensed Consolidated Statements of Comprehensive Income (Loss).

#### Other Financial Instruments

The carrying values of accounts receivable, bank indebtedness, and account payable and accrued liabilities approximate their fair values as at March 31, 2023 due to the short-term nature of these instruments. The carrying value of the term loan approximates fair value as at March 31, 2023 based on current market rates for similar instruments.

## (9) BANK INDEBTEDNESS

On February 8, 2022, the Corporation amended the 2021 credit facility agreement led by Macquarie Bank Ltd., as administrative agent on behalf of a syndicate group of lenders which included Bank of Montreal and Cooperative Rabo Bank U.A. Under the credit facility (the "2022 Credit Facility"). The maximum amount increased from \$100 million to \$150 million, with the potential to access an accordion feature that would provide an additional \$20 million. The 2022 Credit Facility matured on February 7, 2023.

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

On February 7, 2023, the Corporation amended the 2022 Credit Facility. Under the new credit facility (the "2023 Credit Facility") the maximum amount remained at \$150 million, with the potential to access an accordion feature that would provide an additional \$20 million. The 2023 Credit Facility matures on February 6, 2024.

The interest rate under the 2023 Credit Facility is a tiered annal interest rate based on utilization and is as follows:

Revolver Facility	Applicable
Utilization	Margin
≤ 30%	2.50%
> 30%	2.25%

The total interest rate is calculated by adding the applicable margins above plus SOFR plus 10 basis points. The 2023 Credit Facility is subject to borrowing base limitations. Amounts under the agreement that remain undrawn are not subject to a commitment fee.

The 2023 Credit Facility has certain covenants pertaining to the accounts of the Corporation, as at March 31, 2023, the Corporation was in compliance with all covenants.

As at March 31, 2023 and June 30, 2022, the Corporation had \$40.7 million and \$28.6 million in availability, respectively, on its revolving credit facility.

As at March 31, 2023 and June 30, 2022, the carrying amount of bank indebtedness is summarized as follows:

(in thousands of USD)	 March 31, 2023	 June 30, 2022
Revolving credit facility Unamortized financing costs	\$ 22,000 (451)	\$ 55,000 (324)
Bank indebtedness	\$ 21,549	\$ 54,676

#### (10) TERM LOAN

On June 11, 2021, the Corporation entered into the BMO Loan, a five-year senior secured \$50 million term debt credit facility that includes a \$30 million term loan draw along with an additional \$20 million delayed draw committed term loan that will be used to fund future growth projects and initiatives. Repayment of the BMO Loan will be in the form of quarterly payments of \$375 thousand over the 5-year term, with the remaining balance of \$22.5 million due on the maturity date of June 11, 2026. Undrawn amounts on the delayed draw term loan are subject to a 0.25% commitment fee. Interest is paid monthly and at the Corporation's option, the BMO Loan will bear interest equal to:

- 3.5% plus one-month SOFR; or
- 2.5% plus the greater of (i) Lender's prime commercial rate as in effect on such day, (ii) the sum of the Fed Funds plus 0.5%, and (iii) the one-month SOFR plus 1.0%

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

On September 14, 2021, the Corporation entered into a floating-to-fixed interest rate swap to lock in the interest rate on the BMO Loan. The amount of the floating-to-fixed interest rate swap will reduce in tandem with the quarterly principal repayments on the loan. The swap locks in the variable LIBOR portion of the interest rate at 0.721%.

Interest rate benchmark reform – phase 2 amendments

The Corporation adopted Interest Rate Benchmark Reform - Phase 2: Amendments to IFRS 9, IAS 39, IFRS 4 and IFRS 16 (the "Phase 2 Amendments") which is effective for all fiscal years beginning on or after January 1, 2021. Interest rate benchmark reform ("Reform") refers to a global reform of interest rate benchmarks, which includes the replacement of some interbank offered rates with alternative benchmark rates. The Phase 2 Amendments provide a practical expedient requiring the effective interest rate be adjusted when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities that relate directly to the Reform rather than applying modification accounting which might have resulted in a gain or loss. In addition, the Phase 2 Amendments require disclosures to assist users in understanding the effect of the Reform on the Corporation's financial instruments and risk management strategy. The Corporation has the following financial instruments that were previously indexed to the London Interbank Offered Rate ("LIBOR") transitioned to alternative benchmark rates as at March 31, 2023:

(in thousands of USD)	Carr	ying amount
BMO Term Loan	\$	27,000
BMO Delayed Draw		16,250
Interest rate swap contract		1,933

On December 30, 2022 (effective January 30, 2023), the Corporation amended its Term loan to transition from one-month LIBOR to Term SOFR. To align the interest rate swap with the amended Term Loan, the Corporation executed an interest rate swap amendment, effective January 31, 2023, locking in the variable SOFR portion of the interest rate at 0.665%.

The notional balance outstanding on the swap as at March 31, 2023, is \$27.0 million. The interest rate on the BMO Loan is expected to be approximately 4.2% per annum through the swap maturity date of September 29, 2025. Settlement of both the fixed and variable portions of the interest rate swap occurs on a monthly basis. The Corporation has applied hedge accounting to this relationship whereby the change in fair value of the effective portion of the hedging derivative is recognized in accumulated other comprehensive income. The full amount of the hedge was determined to be effective as at March 31, 2023. The Corporation has classified this financial instrument as a cash flow hedge and the fair value of the hedging instrument is recorded as an asset of \$1.9 million on the consolidated balance sheet.

On October 15, 2021, the Corporation borrowed \$10.0 million on the BMO Delayed Draw. Repayment of the BMO Delayed Draw will be in the form of quarterly payments of \$125 thousand over the 5-year term, with the remaining balance of \$7.9 million due on the maturity date of June 11, 2026. Interest on the BMO Delayed Draw follows the rates set forth for the BMO Term Loan.

On March 29, 2022, the Corporation borrowed the remaining \$10.0 million on the BMO Delayed Draw. Repayment of the BMO Delayed Draw will be in the form of quarterly payments of \$125 thousand over

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

the 5-year term, with the remaining balance of \$8.0 million due on the maturity date of June 11, 2026. Interest on the BMO Delayed Draw follows the rates set forth for the BMO Term Loan.

In connection with the origination of term loans, the Corporation paid transaction costs relating to the loan closure in the amount of \$748 thousand during fiscal year 2021 and \$349 thousand during fiscal year 2020, which included legal fees and other related borrowing costs. Transaction costs directly attributable to the issuance of the loan are recognized as a reduction in the balance of the loan and are amortized over the term of the loan using the effective interest method.

## (14) EQUITY INCENTIVE PLAN

Stock Option Awards

During the nine-months ended March 31, 2023, Ceres had outstanding stock option awards ("Options"), which include Tandem SARs, under the Corporation's Equity Incentive Plan ("Equity Plan") to certain officers and employees of the Corporation. As at March 31, 2023, the outstanding Tandem SARs are as follows:

	Number of Options	Weighted average exercise price (CAD)	Weighted average remaining contractual term (years)
Outstanding as at June 30, 2021	1,303,375	\$ 4.61	1.66

Exercisable as at March 31, 2023	554,000	\$ 3.73	2.06

At the grant date, the fair value of the Options are estimated using the Black-Scholes option pricing model with the following weighted-average assumptions: an average risk-free interest rate of 4.17%; expected volatility of 52.5%; dividend yield of nil; an average expected option life of 4.25 years; and an average exercise price of CAD \$2.68. The weighted average grant date fair value of the Options granted during the nine months ended March 31, 2023, is CAD \$1.09. As at March 31, 2023, Options had exercise prices ranging from CAD \$2.66 to CAD \$5.84 and CAD \$2.98 to CAD \$5.84 as at March 31, 2022.

The total Option compensation cost included in general and administrative expenses for the three months ended March 31, 2023, amounted to \$25 thousand and \$62 thousand for the three months ended March 31, 2022. For the nine months ended March 31, 2023, the total Option compensation cost included in general and administrative expenses totaled \$36 thousand and \$342 thousand for the nine months ended March 31, 2022 with the non-cash expense being accrued and classified within Stock appreciation right liability in the Interim Condensed Consolidated Balance Sheet.

#### Restricted Stock Units

In the first quarter of fiscal year 2023, the Corporation granted 250,000 Restricted Stock Units ("RSUs") under the Equity Plan, with a grant date fair value of \$915 thousand. The RSUs vest in five equal installments based on the attainment of certain performance measures and the employee's continued service through the vest date. As at March 31, 2023, the outstanding RSUs are as follows:

(in thousands of USD)	Number of Units
Balance at June 30, 2021	206,718
Restricted stock units exercised	(51,680)
Restricted stock units granted	42,827
Balance at June 30, 2022	197,865
Restricted stock units exercised	(205,038)
Restricted stock units cancelled	(42,827)
Restricted stock units granted	250,000
Balance at March 31, 2023	200,000

The total RSU compensation cost included in general and administrative expenses for the three months ended March 31, 2023, amounted to \$65 thousand and \$31 thousand for the three months ended March 31, 2022. For the nine months ended March 31, 2023, RSU compensation cost included in general and administrative expenses totaled \$506 thousand and \$204 thousand for the nine months ended March 31, 2022, with the non-cash expense being accrued and classified within accounts payable in the Interim Condensed Consolidated Balance Sheet.

## (15) DIRECTORS' SHARE AND DEFERRED SHARE UNIT PLAN

Effective December 1, 2020, the Board of Directors amended the Directors' Share and Deferred Share Unit Plan ("DSU Plan") to provide that any Deferred Share Unit ("DSU") granted on or after December 1, 2020, will be redeemed in cash in an amount equal to the Fair Market Value of a Common Share, determined by the Committee in its sole discretion as of the Entitlement Date; provided that the Corporation may, at its option and subject to the availability of shares under the DSU Plan, deliver to the Eligible Director in satisfaction of all or a portion of such Deferred Share Units, one Common Share for each Deferred Share Unit.

Effective September 29, 2016, the Board of Directors amended the DSU Plan to (i) authorize the Board of Directors, in its sole discretion, to issue Common Shares to directors in lieu of all or a portion of the annual cash remuneration payable to eligible directors in respect of services provided by such eligible directors to the Corporation, (ii) increase the aggregate number of Common Shares issuable under the plan from 450,000 to 600,000 Common Shares and (iii) rename the plan the Directors' Share and Deferred Share Unit Plan.

Effective March 10, 2014, Ceres has a Directors' Deferred Share Unit Plan, whereby DSUs are issued to Eligible Directors, in lieu of cash, for a portion of Directors' fees otherwise payable to Directors. The Fair

## Notes to the Interim Condensed Consolidated Financial Statements March 31, 2023 and March 31, 2022 (Expressed in USD)

Market Value of the DSUs on the date such units are calculated and issued represents the volume-weighted average trading price of Ceres' common shares for the five trading days immediately preceding the date of issuance of the DSUs. Each DSU entitles the director to receive payment after the end of the director's term in the form of common shares of the Corporation. Under the plan, the aggregate number of common shares issuable by Ceres under this Plan was limited to 450,000 and subsequently amended to 600,000 common shares. Certain insider restrictions and annual dollar limits per Eligible Director exist. Dividends, if any, otherwise payable on the common shares represented by the DSUs are converted into additional DSUs based on the Fair Market Value as of the date on which any such dividends would be paid. The DSU Plan also provides for the Board of Directors to award additional DSUs (referred to in the DSU Plan agreement as "Matching DSUs") to an Eligible Director who has elected to receive DSUs pertaining to his/her Annual Cash Remuneration amount (as defined by the DSU Plan).

The Corporation intends to settle all equity settled DSUs with shares through the issuance of treasury shares, and settle all cash settled DSUs with the payout being calculated based on the five-day weighted share average price. Compensation expense is included as part of Directors' fees classified with general and administrative expenses and is recognized in the accounts as and when services are rendered to the Corporation.

The following table summarizes the information related to equity settled DSUs outstanding:

## (19) LEGAL

The Corporation is involved in various legal claims and legal proceedings arising in the ordinary course of business. The Corporation believes it has adequately assessed each claim, and the necessity of a provision for such claims. As at March 31, 2023 and June 30, 2022, the Corporation has no provision for any legal claims.

## Regulatory Investigations

Beginning in June of 2021, the Corporation and certain of its current and former personnel have received subpoenas from the U.S. Department of Justice ("DOJ") to produce documents and other records regarding the Corporation's trading and other related activities, with a particular focus on the Corporation's oat market trades from 2016 to 2019. The Corporation also received a voluntary document request from the U.S. Commodity Futures Trading Commission ("CFTC") seeking similar information. The Corporation is cooperating with both investigations which are ongoing. The Board has established a special committee to oversee the Corporation's response to these investigations.

The outcome of the investigations is difficult to assess or quantify. The existence, timing, and amount of any future financial obligations (such as fines, penalties, or damages) or other consequences arising from the DOJ and CFTC investigations and any potential related litigation cannot be determined at this time and no liability has been recognized in relation to these matters in the Interim Condensed Consolidated Balance Sheet at the end of the reporting period. Certain costs to cooperate with the investigations have been and may continue to be significant, including but not limited to legal related fees of \$4.4 million for the nine-months ended March 31, 2023, and \$9.5 million for the investigation to date. In addition, if the DOJ and/or the CFTC decide to pursue an action against the Corporation as a result of the investigations, that may result in liability material to the Corporation's Interim Condensed Consolidated Financial Statements as a whole or may materially and adversely affect the Corporation's business, financial position, cash flow, and/or results of operations, and the magnitude of the potential loss may remain unknown for substantial periods of time.
